# How to Enable Google Assistant

Kwikset

1 On your Android or iOS device, open the **Google Home** app making sure you are logged in with the Google account associated with your Google Smart Speaker.
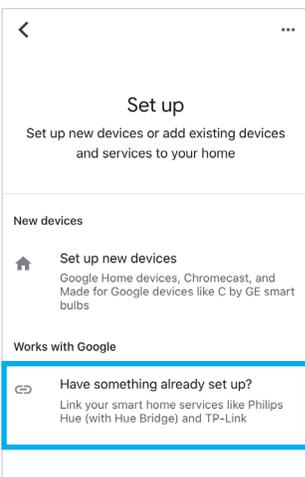

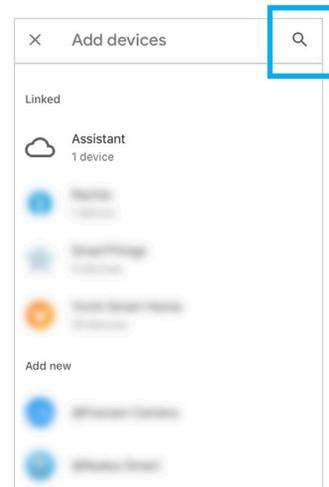

**2** Select **+ Add**.

3 Tap on **Set up device**.

4 Tap "**Have something already set up?**"

**5** Tap the search icon on the upper right of the screen.

**6** Search for "**Kwikset Smart Home**" and tap on it.

7 On the account linking page, enter your Kwikset App username and password, then click **Sign In**.
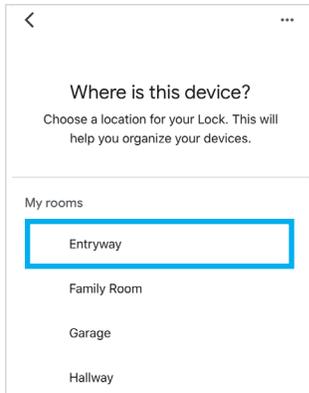

8 Tap your device, then tap **Next**.

**9** Tap the home to which you would like to add the device, then tap **Next**.

Continue to the next page for additional steps.

10 Next, tap the location where this device is located.

11 The home screen will show the newly discovered Halo devices and you can now control them using Google Smart Speaker.

12 You're done! Now, you are able to use the following commands:

"Hey Google,
is *[Lock Name]* unlocked?"

"Hey Google,
is *[Lock Name]* locked?"

"Hey Google,
lock *[Lock Name]*."
