

AURA SMART LOCK FACT SHEET

Updated: 1.4.19

Aura Smart Lock in Satin Nickel, exterior.

Aura Smart Lock in Venetian Bronze, exterior.

Aura Smart Lock in Iron Black, exterior.

PRODUCT OVERVIEW

Aura™ from Kwikset® is a Bluetooth-enabled deadbolt that provides an affordable entry point for those looking to upgrade to a smart lock. The smart lock can be controlled through the new Kwikset mobile app, when a paired mobile device is within Bluetooth range, for convenient lock programming, management and control.

REPUTABLE PRODUCT FEATURES

Easy In-App Management: Aura offers simplified, convenient access control and management directly through the mobile app, when a paired smartphone is within Bluetooth range. The Kwikset mobile app is launching in tandem with the smart lock and will be available for free download via compatible smartphone app marketplaces, such as the Apple App Store or Google Play Store.

In-app control capabilities within Bluetooth range of Aura include:

- Deadbolt unlocking and locking
- Viewing lock history
- Managing access control with up to 250 user codes
- Managing lock settings

The Kwikset app also enables homeowners to manage multiple Kwikset smart locks installed in the same home.

Simplified Installation: Aura is designed for installation on standard size residential exterior doors and can be quickly installed in minutes with just a screwdriver.

Compact Design: Aura is a functional and discreet addition for those looking for an upgrade. Available in three finishes, Satin Nickel, Venetian Bronze and Iron Black, Aura adds style to any entryway.

BRAND-BACKED SECURITY

Advanced SmartKey Security™: Aura features the latest version of Kwikset's patented SmartKey Security. The advanced SmartKey Security provides strong resistance against common break-in methods like torque attacks, locking picking and lock bumping. SmartKey Security also allows homeowners to reset their security by re-keying their locks quickly and easily; rendering lost, loaned or unreturned keys useless.

DEVICE COMPATABILITY

Compatible Smartphones: The Kwikset mobile app is compatible with newer iOS and Android smartphones using Bluetooth 4.2 technology.

LAUNCH TIMING AND WHERE TO BUY

Aura will be available for purchase for \$149 MSRP in 2019. A list of retailers will be available closer to launch date.
