

KWIKSET HALO™ TOUCH WI-FI ENABLED SMART LOCKS

Traditional Halo Touch Wi-Fi Smart Lock.

Available in Venetian Bronze, and Satin Nickel.

Contemporary Halo Touch Wi-Fi Smart Lock.

Available in Satin Nickel and Iron Black.

PRODUCT OVERVIEW

Halo™ Touch Smart Locks are Wi-Fi-enabled deadbolts from Kwikset®, a manufacturer of smart lock products made for the world you live in. Available in two styles, contemporary or traditional, Halo Touch allows users to access their homes using advanced fingerprint technology and connects directly to homeowners' existing Wi-Fi networks and smartphones to create a simple, secure smart home, without the need for a third-party hub, panel or subscription service.

With the ability to program and store up to 100 fingerprints (50 users), Halo Touch ensures all family and household members can access the home with one-touch fingerprint locking and unlocking. In addition, through the Kwikset app, homeowners can remotely monitor and control their Halo Touch Smart Locks from anywhere in the world, while connected to the Internet.

The new Kwikset deadbolts are an ideal solution for homeowners interested in upgrading to a secure, stylish lock that simply requires a Wi-Fi network and paired smartphone for control over their front door. Halo also includes traditional key functionality for peace of mind.

VALUED PRODUCT FEATURES

Simplified Smart Home Experience: Halo Touch connects directly to Wi-Fi to enable smart lock features directly to a smartphone, via the Kwikset mobile app. This set up eliminates the need to purchase a third-party smart home hub, no hard wiring needed. Halo Touch operates on 4 AA batteries.

DIY Install: Halo Touch Smart Locks fit seamlessly on standard size exterior residential doors, replacing existing door hardware with just a screwdriver, and can be used within minutes of unboxing, once paired to the local Wi-Fi network and connected through the Kwikset mobile app.

One-Touch Access: Halo provides homeowners one-touch access to their home. With the intuitive Kwikset app, they are given more control over their front door security,

allowing them to operate, manage and monitor their locks through their smartphones using the app from anywhere there's an Internet connection. With the ability to lock and unlock, manage user codes, view lock activity, receive lock notifications and much more, Halo brings the ultimate in security and convenience to one's fingertips.

BRAND-BACKED SECURITY

Advanced SmartKey Security™: Halo Touch Wi-Fi Smart Locks feature the latest version of Kwikset's patented SmartKey Security. Advanced SmartKey Security provides strong resistance against both common and advanced break-in methods like torque attacks and lock bumping and passes the most stringent lock-picking standards (UL 437, par 11.6.). SmartKey Security also allows homeowners to reset their security by re-keying their locks quickly and easily; rendering lost, loaned or unreturned keys useless.

Homeowners can have peace of mind knowing fingerprints are stored locally at each lock, not in the cloud.

BHMA Certified to Grade AAA: Halo meets the highest residential grade performance and is certified by the Builders Hardware Manufacturers Association (BHMA), per A156.40 to Grade AAA, the only organization accredited by the American National Standards Institute (ANSI). These standards ensure the quality and durability of locksets through a series of operational and security tests.

DEVICE + TECHNOLOGY COMPATIBILITY

Kwikset Mobile App: The Kwikset mobile app is available for free download from compatible smartphone app marketplaces, such as the Apple App Store or Google Play Store. The app will be used for installation and lock set-up, deadbolt locking and unlocking, guest access management and deadbolt monitoring. The Kwikset mobile app is compatible with both iOS and Android smartphones.

Halo Touch features voice assistant integration as it works with Google Home Assistant and Amazon Alexa through voice commands.

WHERE TO BUY

The Halo Touch Wi-Fi Smart Lock will be available for purchase in 2020 for \$249 MSRP at HomeDepot.com, Lowes.com, Amazon.com and Build.com. The new Smart Locks will launch in traditional and contemporary styling with three finish options, Satin Nickel, Venetian Bronze (traditional only) and Iron Black (contemporary only).
