

Kwikset® SmartCode™ Touchpad Electronic Lever

Fact Sheet

SmartCode Touchpad Electronic Lever

Overview:

- Gain entry in a few simple pushes of a button
- Easy to install, program and use
- Eliminates the need for keys
- Back-lit panel for increased visibility
- Sleek style to complement your home's interior

What is SmartCode?

- Electronic keyless entry lever
- With a personal code, you can lock up your home office, wine cellar or storage room and never have to worry about keys

Why Should I Choose a SmartCode Electronic Lever?

- SmartCode Touchpad Electronic Lever integrates style into door hardware throughout the home
- One touch locking convenience
- Four customizable access codes for increased security
- Installs in minutes with just a screwdriver – no hardwiring required
- Fits standard doors with no new screw holes required
- Ideal for small/home office, utility/storage room, interior garage/side door, wine cellar and more

How does SmartCode work?

- Quick and easy to install; requires no hard wiring and is powered by four (4) AA batteries
- Program a personal code between four and eight digits and assign a temporary code to whoever needs it; delete and reprogram as needed
- Activate or deactivate the system's automatic door locking feature with 30-second delay

How secure is a lock with SmartCode technology?

- Features Kwikset's **SmartKey re-key technology** [[link to fact sheet](#)] with BumpGuard™ protection when needed as back-up
- With SmartKey, SmartCode locks pass the most stringent lock-picking standard, UL 437, par. 11.6

In what finishes is SmartCode available?

- Lifetime Polished Brass, Satin Nickel and Venetian Bronze

Where are SmartCode locks available?

- Home centers and hardware stores nationwide
